## LUBELESS UPGRADE KIT

### Kit Includes\*:

- Lubeless: Draw Valves, Center Draw Valve, Prime Plugs for easy removal from bottom of freezer door
- Exclusive Draw Valve X-Rings (replaces traditional O-Rings)
- Lubeless Drive Shaft Seal(s)
- Self-Lubricated: Freezer Door Gasket(s), Orifice and Air Tube O-Rings, Prime Plug O-Rings
- Freezer Door Bearings
- OEM Beater Shoes
- One-to-one parts template for easy identification of components
- X-H Ring for multi-flavor soft serve machines

\*Kits vary by model number

Make the switch to Hydra Rinse with our Lubeless Upgrade Kit and keep your soft serve machine cleaner than ever before.

The Lubeless Upgrade Kit provides everything you need to make your soft serve machine Hydra Rinse compatible and includes our NSF listed "lubeless" product line. Our self-lubricated compounds, O-rings and seals help to prevent bacteria and yeast contamination and eliminate the need for food safe lube, resulting in time and cost savings.

Become Hydra Rinse ready and maximize food safety with the Lubeless Upgrade Kit for soft serve machines.

### REPEATABILITY

- Reduces labor cost associated with applying OEM lubricants

### CLEANABILITY

- Maximizes food safety with NSF-listed self-lubricated compounds, O-rings and seals to help prevent microorganism contamination against bacteria, yeast and fungi

## LUBELESS TUNE UP KIT

### Kit Includes\*:

- Exclusive Draw Valve X-Ring Technology (replaces traditional O-Rings)
- Lubeless Drive Shaft Seal(s)
- Self-Lubricated: Freezer Door Gasket(s), Orifice and Air Tube O-Rings, Prime Plug O-Rings
- Freezer Door Bearings
- OEM Beater Shoes
- One-to-one parts template for easy identification of components
- X-H Ring for multi-flavor soft serve machines

\*Kits vary by model number

Hydra Rinse makes it easy to maximize food safety, starting with self-lubricated compounds, O rings and seals for use in soft serve machines.

Our "lubeless" compounds, O-rings and seals are the first and only product line to be NSF listed and last up to 3 months. Our exclusive X-H ring for multi-flavor soft serve machines puts an end to product mix crossover.

The elimination of food safe lube helps prevent bacteria and yeast contamination so it is easy to keep your soft serve machine cleaner than ever before. Beyond cleanability, the elimination of lube results in a greater time and cost savings making Hydra Rinse parts the clear alternative to the status quo.
